Model Ordinance Prohibiting the Sale of Tobacco and Unregulated Nicotine Delivery Products by Health Care Institutions

Sec. I. Findings and Intent

Whereas, tobacco is one of the leading causes of death and disease in the United States as well as in the City of ____________;

Whereas, unregulated non-prescribed nicotine delivery products, such as electronic smoking devices, present a public health hazard and may lead minors to early initiation to, and dependence on, nicotine products, resulting in use of conventional tobacco products in the future;

Whereas, tobacco and nicotine delivery products are currently sold in many health care institutions such as pharmacies and drug stores;

Whereas, the sale of tobacco and nicotine delivery products is incompatible with the mission of health care institutions because it is detrimental to the public health and undermines efforts to educate patients on the safe and effective use of medication;

Now therefore, the ____________ [City Council or other governing body], in recognition of the harmful effects of tobacco and nicotine delivery products on both adults and minors, believes that it is important that the sale of tobacco and nicotine delivery products by health care institutions be prohibited in the City of ____________.
