

Discover the additive-free alternative

Santa Fe Natural Tobacco Company was established in Santa Fe, New Mexico in 1982 with the mission of providing the world with the highest and purest quality, 100% additive-free, natural tobacco products. We believe that smokers deserve an additive-free alternative to the highly processed, chemically-altered products of the big tobacco companies.

We have pioneered earth-friendly tobacco growing programs that encourage sustainable agricultural practices while providing participating farmers with a financial boost. Every year we are able to increase the amount of these tobaccos used.

Our difference

Our 100% additive-free, whole-leaf, natural tobacco contains no additives, no reconstituted sheet tobacco and no processed stems.

Natural American Spirit is made using only the finest, premium tobacco specially selected for us by our own leaf experts.

We are the only brand that features both cigarettes made with 100% certified organic tobacco as well as cigarettes made with 100% additive-free natural tobacco.

do's & don'ts

Natural American Spirit tobacco products contain no preservatives. Therefore, you may want to store them in an airtight container in your refrigerator.

Don't pack your Natural American Spirit cigarettes! Our cigarettes are already packed tighter with up to 25% more tobacco than other king size cigarettes.

Because Natural American Spirit cigarettes are packed tighter they are sometimes harder to draw. To get a smoother draw roll the cigarette between your thumb and forefinger to loosen the tobacco.

Our products

You may think our colors are a bit unique. But we are a company who has always done things our own way. We chose our pack colors to reflect the unique colors found in the earth and sky of our home in Santa Fe, New Mexico.
