

**The smoke
will wash out
of her clothes.**

**But what about
her lungs?**

The Smoke-Free Texas coalition would like to express appreciation to the Corpus Christi City Council for allowing the smoke-free city ordinance to be implemented as scheduled.

Thank you for supporting one of the most important health measures of our time. Because of your careful study of the health impact of secondhand smoke and your courage to take action, Corpus Christi will soon be a better place to breathe.

Thank You, Corpus Christi City Council

*Everyone has the right
to breathe clean air.*
