

What's the best reason to thank your Fayetteville City Council Member?

Fewer asthma attacks...

Lower cancer rates...

Fewer heart attacks...

For doing exactly the right thing.

Standing firm. Defying the special interests. Listening to the people.

On September 2, 2003 the Fayetteville City Council passed a smoke-free ordinance backed by many health organizations and citizen advocates.

Over time, it will save thousands of lives. Protecting each one of us from the deadly toxins in secondhand smoke.

No matter where we work.

Will it take a few people a little while to change their habits? Sure.

But other cities have found that compliance and public support grow steadily stronger the longer comprehensive smoke-free measures are in effect—even among addicted smokers.

Fayetteville will, too.

Thanks to Council members who listened to all of the people of Fayetteville. Took a long-range view. And did exactly the right thing.

Smoke-Free Fayetteville. Good for People, Good for Business.

For more information on the Smoke-Free Ordinance in Fayetteville, call (479) 466-3024.

We thank you for your support.

SMOKE-FREE FAYETTEVILLE
