## U.S. Laws for Smokefree Multi-Unit Housing

July 1, 2025

As of July 1, **101 municipalities** have enacted a law at the city or county level that regulates smoking in private units of multi-unit housing properties.

Currently, all municipalities with laws regulating smoking in private units of multi-unit housing are in California. ANRF looks forward to adding municipalities in other states to this list in the future.

Of the 101 municipalities that regulate smoking in private units of multi-unit housing:

**51** have the **strongest, best practice laws** that require all multi-unit housing to be 100% smokefree indoors, without exception. These laws cover rental properties (i.e. apartments) and owner-occupied properties (i.e. condominiums and townhomes) with 2 or more units, and they prohibit the use of vaping products and the smoking/vaping of marijuana where smoking is not allowed. These municipality names are in **bold**.

**65** have laws that prohibit smoking in **100% of private units** of both rental **and** owner-occupied multi-unit housing properties with 2 or more units, but may not fully prohibit the use of vaping products and/or the smoking/vaping of marijuana.

**85** have laws that prohibit smoking in 100% of private units of **rental** multi-unit housing properties, but may not cover owner-occupied properties and may apply to buildings with 3 or more units.

**81%** of the 101 laws apply to multi-unit properties with 2 or more units, which is the best practice standard.

**78%** of the 101 municipalities explicitly prohibit smoking and vaping of marijuana wherever tobacco smoking is not allowed.

See Definitions and Explanatory Notes starting on page 6.

Visit ANRF's smokefree multi-unit housing page at [no-smoke.org/at-risk-places/homes/](https://no-smoke.org/at-risk-places/homes/) for more information.

## Municipalities with Laws for Smokefree Multi-Unit Housing:

This table lists municipalities that have **local laws** at the city or county level that regulate smoking in **private units** of multi-unit housing.

Municipality	State	% of Units Currently Smokefree	Effective Date	Minimum Number of Units	Exempts Existing Residents	Includes Condos	Includes Patios/Balconies	Includes Vaping	Includes Marijuana Smoking/Vaping
1. <b>Alameda</b>	CA	100%	1/1/2013	2	No	Yes	Yes	Yes	Yes
2. <b>Alameda County^</b>	CA	100%	7/1/2022	2	No	Yes	Yes	Yes	Yes
3. <b>Albany</b>	CA	100%	3/24/2018	2	No	Yes	Yes	Yes	Yes
4. <b>American Canyon</b>	CA	100%	6/15/2023	2	No	Yes	Yes	Yes	Yes
5. Baldwin Park	CA	100% new/ 80% existing	12/2/2014	2	No	Yes	Yes	Yes	Vaping Exempt
6. Bell Gardens	CA	100%	6/1/2021	3	No	Yes	Yes	Yes	Yes

101. Windsor	CA	100%	8/15/2017	2	No	Yes	Yes	Yes	Yes

### **Definitions and Explanatory Notes:**

Additional municipalities throughout the U.S. that are not represented on this list have local laws that do not address smoking in private units, but do regulate smoking in multi-unit housing to a lesser extent, such as by prohibiting smoking only in indoor common areas or only on patios/balconies.

For public housing policies, see [U.S. Public Housing Authority Policies Restricting or Prohibiting Smoking](#).

# = The law's smokefree requirements are not yet in effect.

^ = County laws in California only cover unincorporated areas of the county, and do not cover cities in the county. Cities located within the county need to adopt their own local laws.

#### **% of Units Currently Smokefree:**

The percentage of units in specified types of multi-unit housing that are required to be smokefree when the law is fully in effect. If a law has different requirements for newly occupied or newly constructed units versus existing units (i.e. units residents are living in at the time the policy is enacted), the percentages are specified as "X% new, Y% existing."

#### **Effective Date:**

The date when the provisions of the law went into full effect. Some laws provide multiple effective dates, such as an initial effective date for when common areas and newly occupied units must be smokefree, and a final effective date when the policy is in effect for residents living in the building at the time the policy is enacted. In municipalities that have enacted more than one law regulating smoking in multi-unit housing, the listed Effective Date is for the policy with the primary smokefree requirements, e.g. Berkeley's smokefree law went into effect in 2014 (listed), and a medical marijuana exemption was removed in 2020; whereas Corte Madera's partial smokefree law went into effect in 2015, and their comprehensive smokefree law went into effect in 2022 (listed).

**Minimum Number of Units:** The law applies to multi-unit buildings that have the specified minimum number of units. Most laws apply to multi-unit buildings with two or more units, including duplexes, which is the best practice.

**Exempts Existing Residents:** The law does not require residents who currently live in multi-unit buildings to follow the smokefree requirements of the law. Instead, the smokefree requirements typically only apply to residents who move into the building after the law goes into effect. This exemption should be avoided.

**Includes Condos:** The law's smokefree requirements apply to owner-occupied multi-unit properties, such as condominiums and townhomes.

**Includes Patios/Balconies:** The law prohibits smoking on patios, balconies, decks, and other private-use outdoor spaces attached to individual units.

**Includes Vaping:** The law prohibits the use of vaping products in multi-unit housing wherever tobacco smoking is not allowed. Laws marked "No" do not address vaping and thus it cannot be assumed that vaping is included, whereas laws marked "Specifically Exempt" contain language that specifically exempts vaping from the smokefree requirements.

**Includes Marijuana Smoking/Vaping:** The law prohibits the smoking and vaping of marijuana in multi-unit housing wherever tobacco smoking is not allowed. Laws marked "No" do not address smoking and/or vaping of marijuana and thus it cannot be assumed that marijuana is included, whereas other laws contain language that specifically exempts smoking and/or vaping of marijuana from the smokefree requirements as detailed in the column.

Please note that this is currently a partial list and ANR Foundation is actively collecting and analyzing additional recently enacted laws. **If you know of local laws that you think should be included on the list**, or want to inquire about additional information on particular laws, please contact the ANR Foundation at [info@no-smoke.org](mailto:info@no-smoke.org) or 510-841-3032.

ANR Foundation maintains a database of over 20,000 tobacco control laws in nearly 6,000 communities. We catalog laws regulating smoking and vaping in public places, e-cigarette and marijuana sales, and more. We work hard to get our data to researchers doing good work. For information about licensing our datasets, contact [TobaccoLawsDatabase@no-smoke.org](mailto:TobaccoLawsDatabase@no-smoke.org).
